We have been making furniture since 1992.

This long experience makes itself felt. Every Kika Mobil kitchen is unique and hand build in our workshop by experienced joiners using artisan craftsmanship, but we are also equipped with the latest technology of producing in wholesale.

Our knowledge of proper workmanship has been passed on for generations and is your gurantee for the high quality of our products.

Cabinets and drawers in our kitchen are fully constructed of strong materials. This gives them the highest level of stability and resilience. Worked with care from our professionals who has experience more than 20 years in our company.

We believe sustainability begins with design process. After all, people only want to hold on to those things that bring lasting enjoyment. Thats why our designs have timeless beauty, which we combine with state-of-the-art technology. Our designers and developers work constantly to perfect innovations that ensure the highest level of ergonomic comfort. We use helpful 3D designing software where client can see it.

At our factory we can produce fast and with high quality furniture thanks to our latest technology. We poses all the machinery required for furniture manufacturing.

Our kitchens are made with care. Kika Mobil work with the highest quality companies.

We use high quality materials, but we can also provide lower quality materials depends on the requirements and desires of the customer.

Our company cooperates with a lot of well known brands:

Egger, Kaindl, Blum, Hettich, Grass, Starwood, StrongBox, Samet, Starax, Oscar, GTV, Kav, Yildiz, AGT, Kastamonu, Blanco, Teka, Franke, Pyramis, Kronospan, Laminam, and lots of other brands.

For the base of the elements we normally use white chipboard 18 mm thick which is better than 16mm but we can change it based on customers requirements and desires. About the front we normally use MDF but we can use other materials as well depends on the customers needs and requests.

Custom Built To Order

*We manufacture to our customers requirements, not to stock. Manufacturing exclusively to order allows us macimum flecibility to create your dream kitchen. A comprehensive range of cupboard styles and the option to adjust heights, widths and depths to your requirements means we can plan the layout individually for you – or even design specially for you. *Except where limited by functional fittings*

Every one of our kitchens is designed to incorporate your ideas in detail and to perfectly match your individual needs.

A variety of wood types, materials, handles and modern cabinet fittings for the interior allow a wide range of configurations.

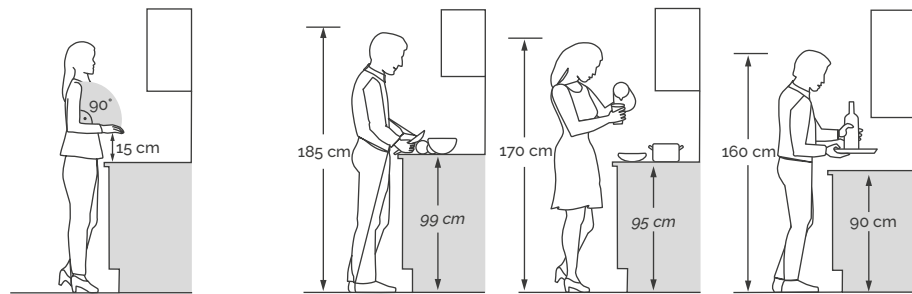

SINCE 1992

ERGONOMICS

Ergonomics has the highest priority in Kika Mobil solid wood kitchens. Individualised layout options and our made-to-measure, made-to-order production means we can fit your kitchen perfectly to your ergonomic needs.

HEIGHT CHART

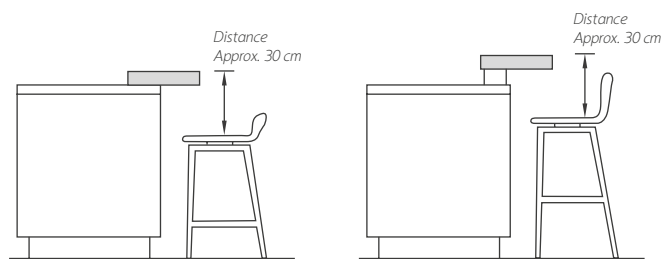

Find your ergonomically optimal working height by bending your elbows to 90 degrees and measuring 15 cm downwards.

Your height	Working height
150	80
155	85
160	90
165	90
170	95
175	95
180	95
185	99
from 190	99

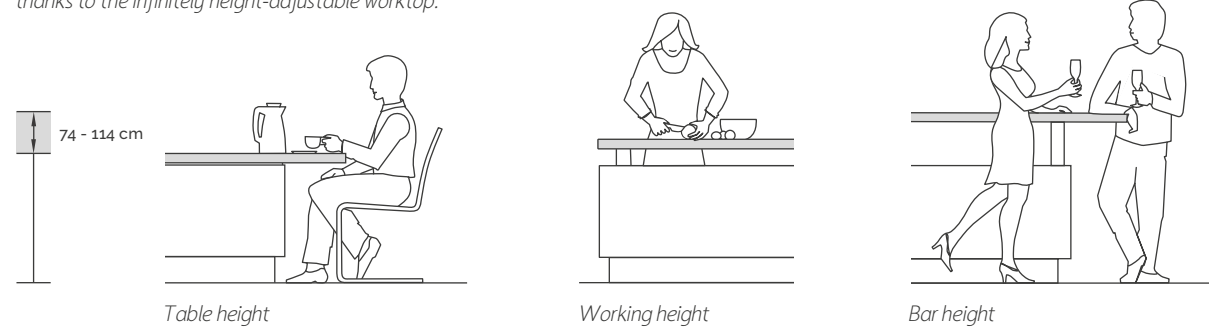

COUNTER AND BAR HEIGHT

For a comfortable sitting position set the bar height approximately 30 cm above the seat height of your bar stool.

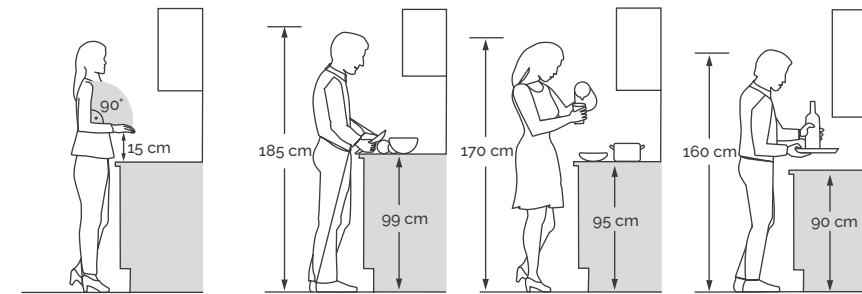

KITCHEN ISLAND

Most comfortable working conditions for every activity – thanks to the infinitely height-adjustable worktop.

HEIGHT CHART

Find your ergonomically optimal working height by bending your elbows to 90 degrees and measuring 15 cm downwards.

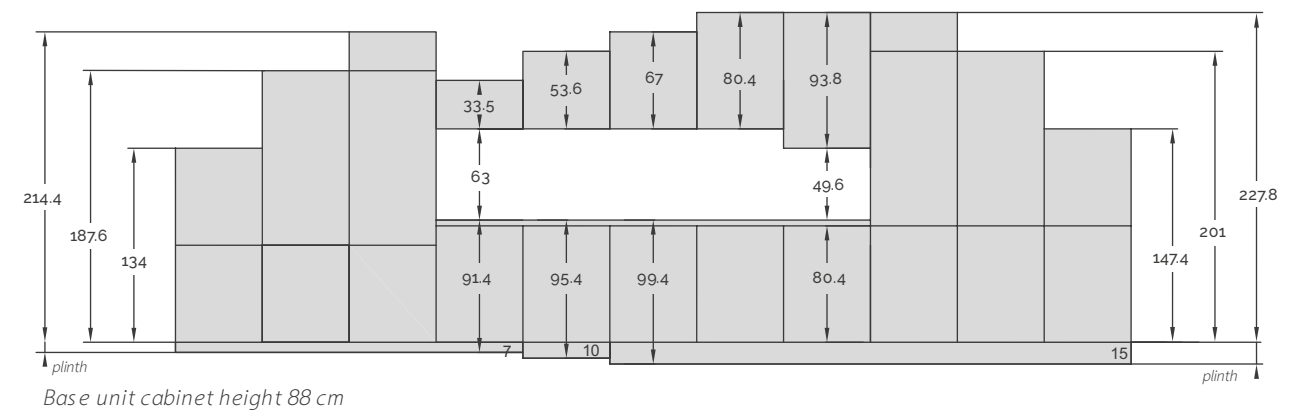

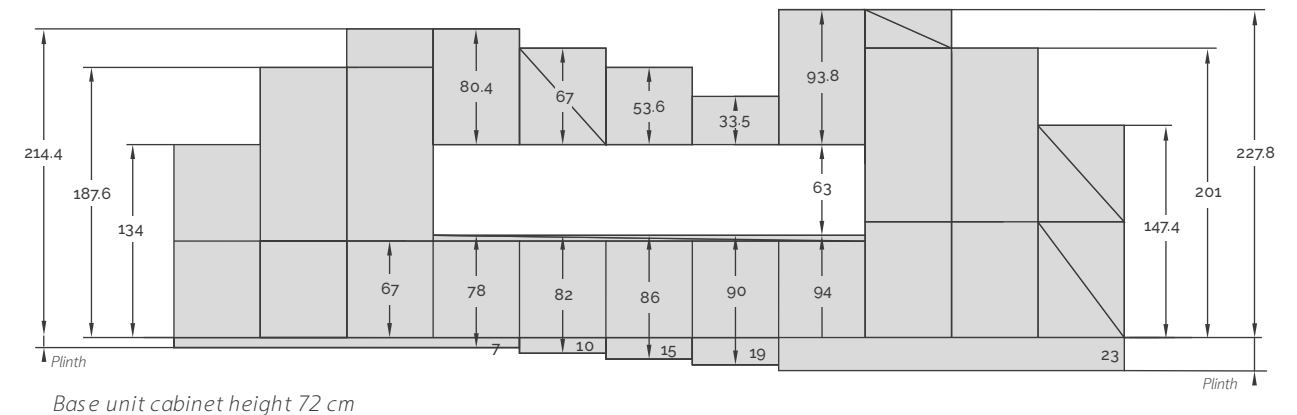

Your height	Working height
150	80
155	85
160	90
165	90
170	95
175	95
180	95
185	99
from 190	99

FRONT AND BODY DIMENSIONS

Attractive, technically mature ideas to suit every requirement: with the numerous front and body dimensions, every Kika Mobil kitchen can be perfectly adapted to your personal and architectural requirements.

KIKA MOBIL BODY SYSTEM

All dimensions in cm. With a 4 cm worktop: applies to both diagrams.

01

KITCHEN

MELAMINE - *MDF laminated board made after combining wood fibres with a resin binding*

MIX - *Design combined from different materials*

PAINTED MDF - *MDF board painted from our professionals*

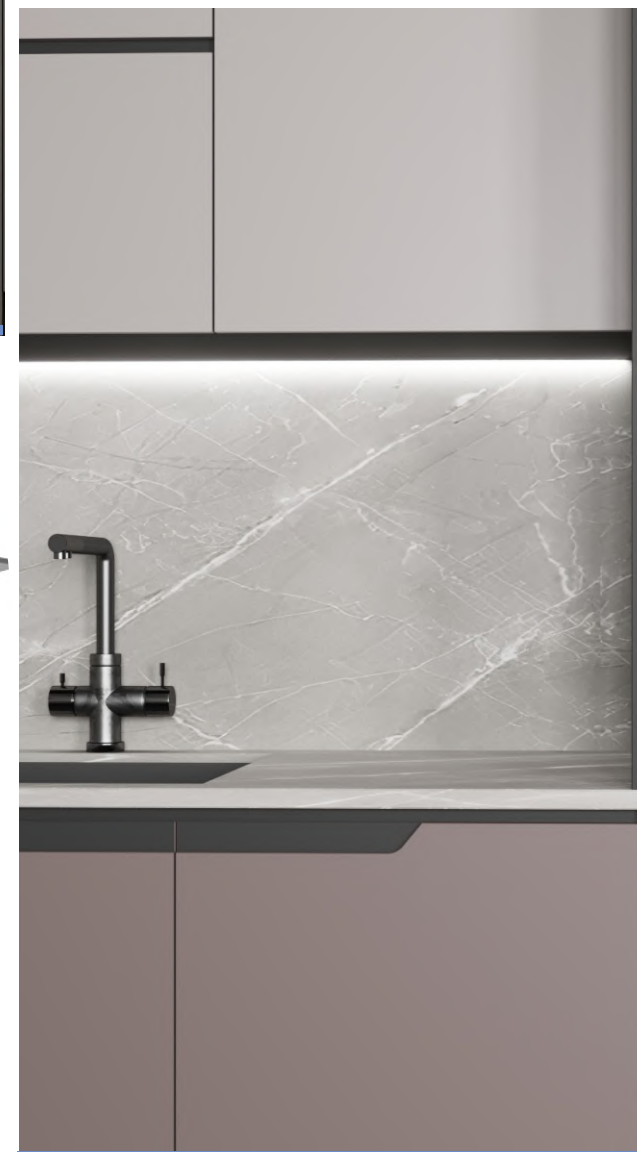

We as Kika Mobil offer custom furniture which means every detail of the kitchen can be edited.
 We offer different kinds of options which will be explained later on this catalog.
 You can edit the dimensions of the kitchen, worktop, handles, appliances, functional fittings, decorations, mechanisms and so on.
 In the photos you can see kitchens made from white chipboard base and Melamine Faced MDF Fronts.

Sink is one of the main parts of the kitchen so customer has to be careful what they choose.
 Depends on the design and the needs of customer we offer a lot of options which you can see below at the catalog.

We offer a wide variety of appliances and different kind of brands so the customer doesn't have to get tired dealing with so many suppliers, instead you can get everything in a single company.
 You offer a wide variety of options you can see more details below.

Thanks to our designers, here you can see a 3D design made with Sketchup.

Designing in 3D

*new
sistem*

If customer doesn't have an architectural project in 3D, we offer them 3D design so they can see their furniture in realistic mode before they order it and we don't charge a penny for that.

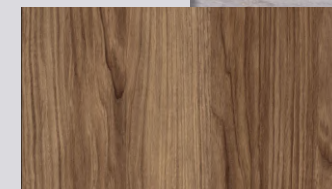

melamine
Design

Materials

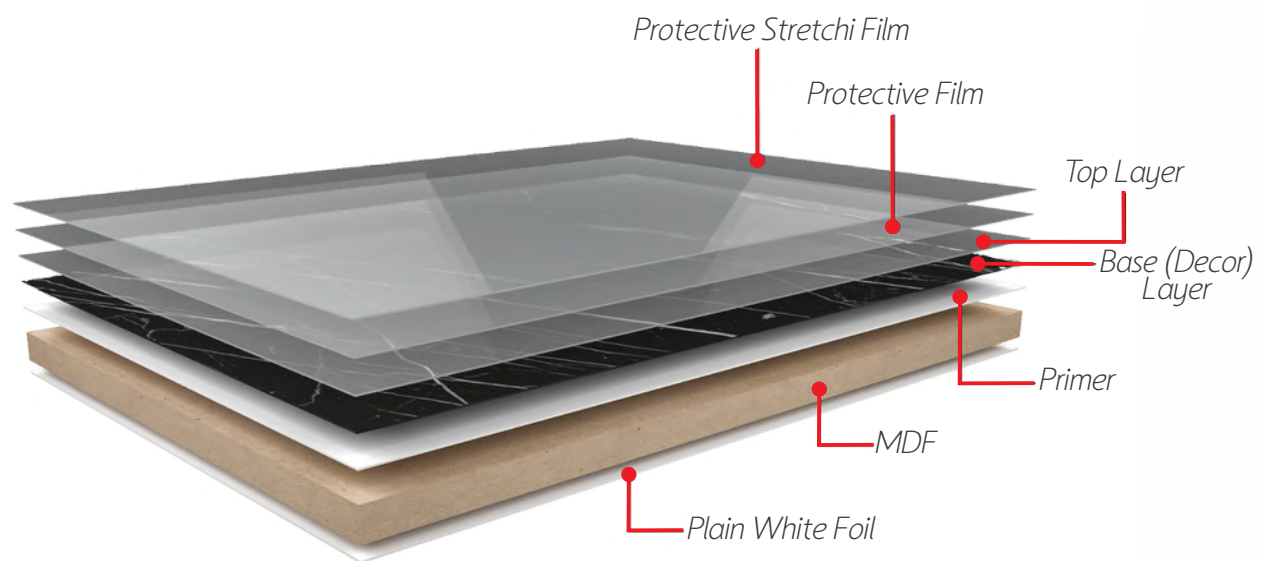

We offer every style of kitchen design from minimalistic design to very complicated or elegant design.

Melamine MDF

This material is Medium Density Fiberboard which is a laminated product made after combining wood fibers with resin binding.

MDF is strong, durable and flexible at the same time.

18

19

MDF Pocketing

As you can see above we offer pocketing door design as well as so many other designs thanks to our CNC machine.

WORKTOPS

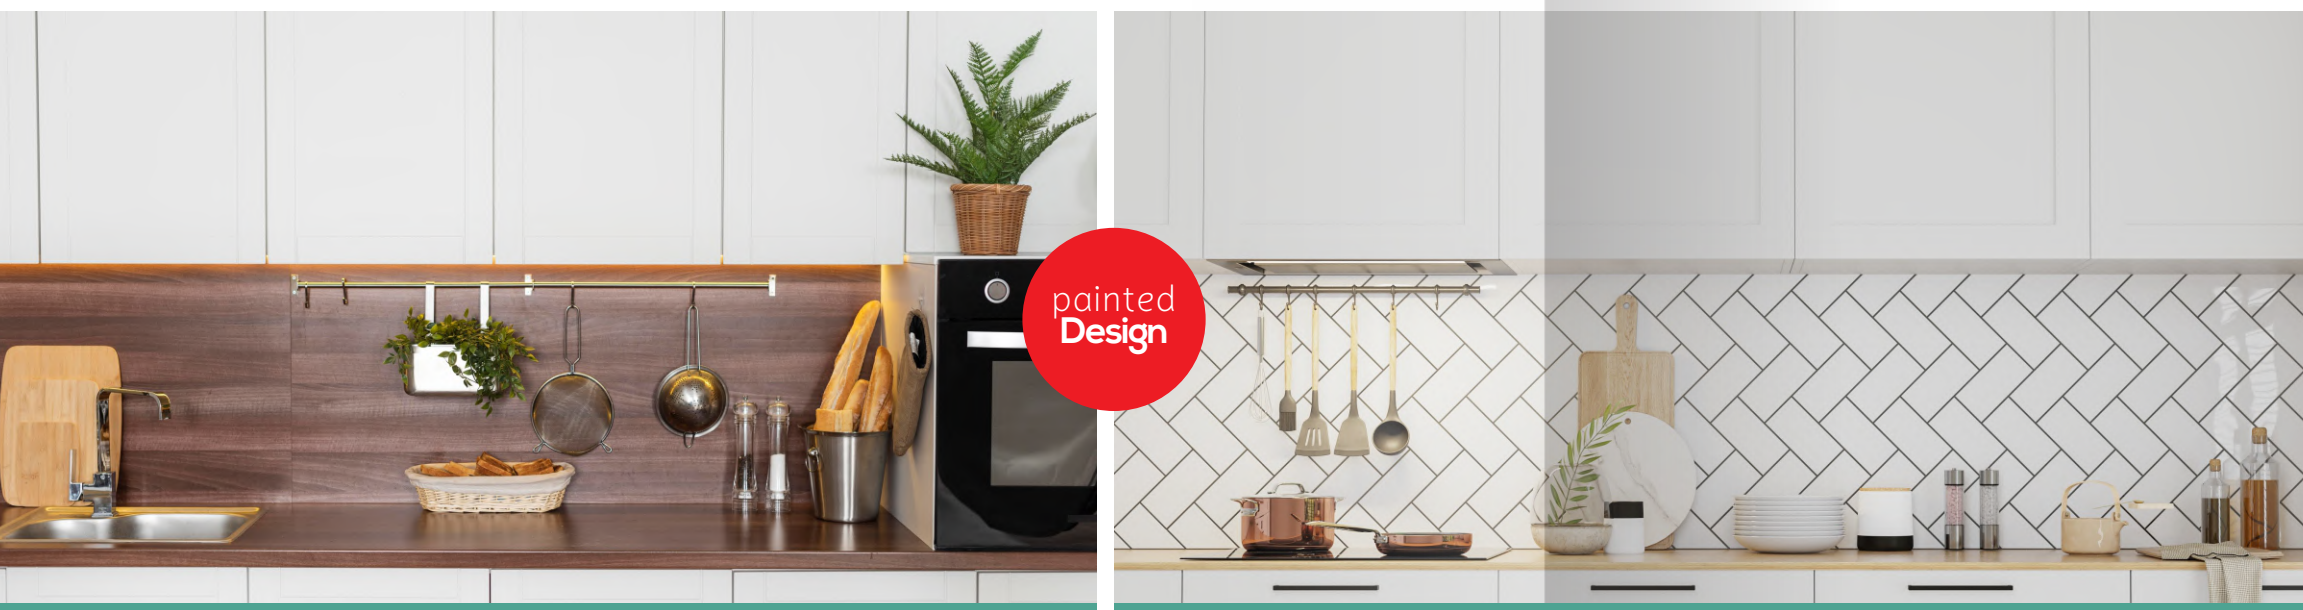

You can choose a variety of worktop from wooden to stone. We offer a lot of options at a really affordable price. We suggest and help you decide what to choose and what is better for you.

Technical Details

We take technical details seriously because the kitchen is the main part of a house, cooking has to be relaxing and fun. Along with the customer we take the project seriously so they can feel the kitchen and at the same time enjoy the beauty of it.

As you can see above a different style of the door painted by our professional team of mdf painters.

Different from other companies Kika Mobil offers designs that are unique with a very affordable price you can see at the photo that you can add on to the kitchen different kinds of materials, led systems wherever it fits, appliances, iron constructed doors with glass, and so on.

Painted
Design

Our designers make it possible for the kitchen to be beautiful, usable and practical in a very unique way. The beauty in our company is that we offer you everything in one place, who can offer you that?

In the picture below you can see that we offer a combined kitchen both melamine and painted mdf.

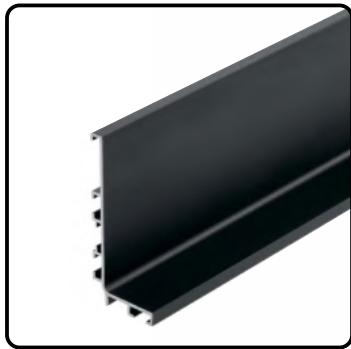

We offer our customers Design ideas and assembly at place. Our professional team of assembly come to the working area after furniture is unloaded to the address and assemble it.

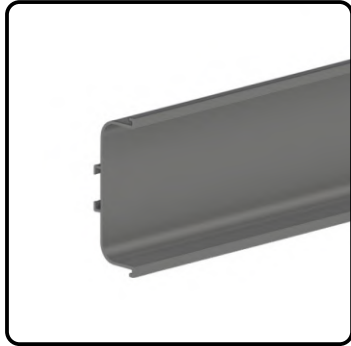

Options

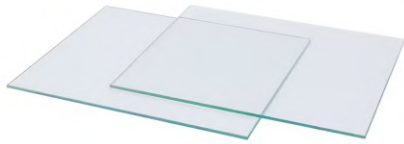

Golaprofile handless system is one of the options you can choose for your kitchen alongside lots of other wide list of options. Below in this catalog you will find out some of our options, but other options are available if you contact us.

Gola profile L

Gola profile C

We offer glass shelves as well as glass doors with led so the kitchen reflects its beauty.

Designing the kitchen based on your surroundings is key so it can give you pleasure watching it.

Dinning Table

Dinning Table is part of the kitchen. We can offer you Dinning Tables as well as comfy chairs. A call to our salesman will give an answer of your questions and requests.

Quality

Kika Mobil uses thicker materials for more durability and stability. Quality and price is what has helped us achieve what we are today. We normally use White 18mm thick chipboard for the base, but we can change that based on customers requirements.

melamine
Design

Mechanisms are what makes kitchen fun to use and practical to cook

36

37

You can edit the height, width and length of every single cabinet as you will.

Assembly

As well as kitchen assembly we also offer appliances assembly so the kitchen is fully functional and the customer can immediately start using it.

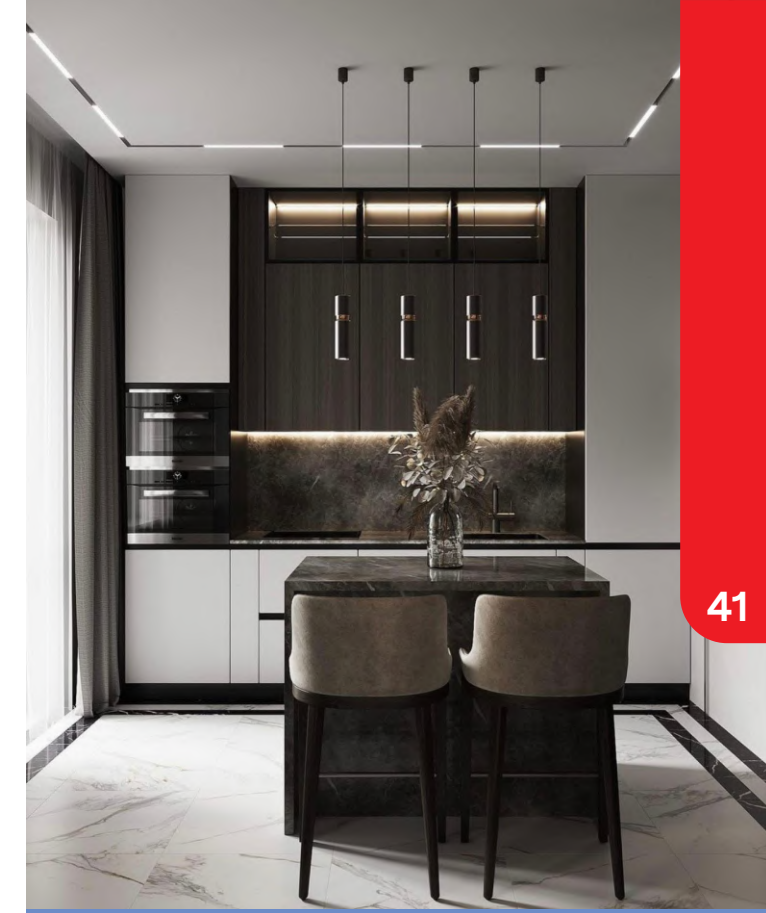

Transportation

We offer transportation to the customers address wherever it may be. Kika Mobil doesn't have limits when it comes to happiness of the customer. Your desire is our duty and that's what we stand for.

Worktop assembly

Kika Mobil offers to many services. We take our customers time and effort seriously as we offer also worktop assembly.

Prices

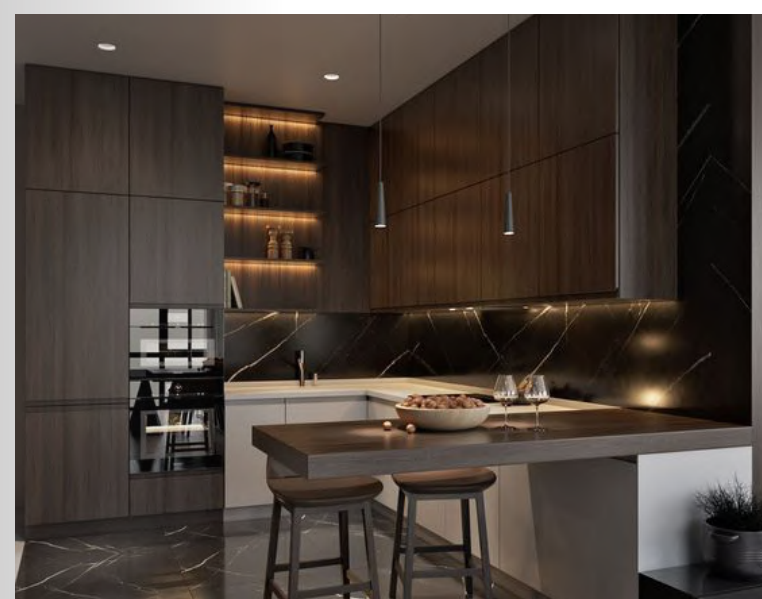

Prices are a big factor when it come to investing into something. Based on the quality and services we offer, our prices are very affordable. For more information about pricing customer must contact one of our salesman.

Wholesale

Our Company is equipped with the latest technology of machinery which enables us to sell in wholesale fast and reliable prices. We offer our customers Wholesale products as well as services such as: Beamsawing, Edgbanding and CNC work.

Services

Services we offer are as follows: Measurment of the working area, 3D Designing of furniture, Explaining every detail of every option and question customer asks, fast production, transportation, assembly and so on.

46

47

Veneer MDF

We also offer Veneer MDF in all kinds of wood textures depends on customers choice.

Painted MDF

Painted MDF besides Melamine MDF has the advantage of being processed in CNC machine and make different designs. It is the same material as melamine the difference is that melamine must be edgebanded.

melamine
Design

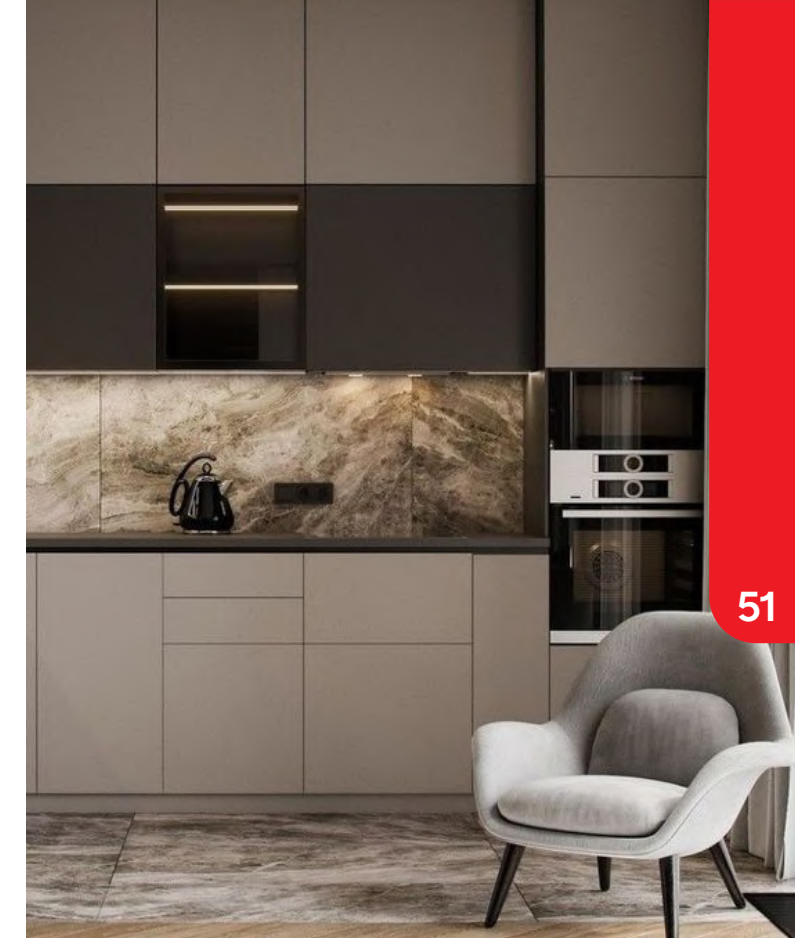

Delivery Time

Time is something more valuable than money, so we take it very seriously. At Kika Mobil we work on a schedule as we manage how much can we produce monthly. If we are not able to reach the delivery time we reject the project so customer doesn't have to worry about late delivery.

Lining Design

As well as other designs from painted mdf, lining design is a unique design that gives the kitchen a modern taste. Lining design can be also applied into melamine mdf, but its preferable info painted mdf.

Mechanism

We offer a wide variety of mechanisms and options Kika Mobel offers cheaper brand as well as more expensive and well known brands depends on the customers desire. We give suggestions to customers based on the design and functionality of the cabinet.

Opening System

It's important to choose the right opening method to adapt the kitchen to your own needs or habits and to customise it with a stylish detail. As well as various types of groove channels, a set of handles - that can either be attached to the door or recessed into it - is also available.
