Make the first technical review useful

A complete enquiry lets Kika Mobil assess fit, clarify assumptions and prepare a project-specific commercial response without relying on generic prices or promises.

Accepted production brief

Send with the RFQ

Use drawings or a clear product brief. Early transparency reduces rework.

- Product types, dimensions and quantities
- Materials, finishes and hardware preferences
- Target market, packing and delivery country
- Required dates and compliance documentation

Confirmed per project

No material, delivery or customs outcome is assumed before review.

- Manufacturing and supplied-component scope
- Sample, approval and QC checkpoints
- Packaging, labels and document set
- Commercial terms and logistics coordination
